

Guardian Flowthru mats are perfect for indoor or outdoor use, where drainage is required along with excellent anti-fatigue properties. A durable and washable rubber mat with anti-fatigue and anti-microbial properties. The inorganic antimicrobial characteristics are built-in to inhibit the growth of bacteria, such as E-coli and Staphylococcus Aureus.

Guardian Flowthru mats features a resilient nitrile rubber construction that eases the fatigue of long-standing jobs in the kitchen or a bar environment also helping to prevent impact breakage.

A textured surface offers surefootedness and the thruflow holes contribute to drainage and cleanliness. Oil and grease resistant.
