

...the choice matters

Cable Safe MD401

Floor Safety Mat

www.matsdirect.co.uk

MD401 Cable safe floor mats for covering cables and wires running over an open floor area helping to create a safe passage.

Slips & trips are the most common cause of non fatal injuries in both manufacturing and service industries.

Employers can help reduce slip & trip hazards through good health & safety management.

Effective solutions are often simple and cost effective. The cable safe floor mat is just such a solution.

A containment recess in the back of the mat holds loose cables and wires in place.

Manufactured from Nylon and Nitrile Rubber backed cable safe floor mats are fully washable and have a Rubber safety edge to all four sides. Suitable for most floor types. Ideal for commercial, retail, industrial, or public sector environments.

Colours: Black/Steel, Black/Blue.
