

These Polyester Rib pattern PVC backed dust control barrier floor mats are fully washable and have a PVC safety edge to all four sides.

The rib pattern helps to conceal the dirt and moisture until good housekeeping can be done and thereby achieves the deception of looking good even when it is hiding dirt and moisture.

A cost conscious solution for a permanent or temporary entrance mat in light or medium traffic entrance areas.

Barrier dust control floor mats can be used in commercial, retail, industrial, or public entrances.

Weight/M2 (Kg- Approx): 1.8
