Corpromat full colour printed logo mat module has been specially developed for use only with Diamond, Matrix and Concourse entrance matting systems and they are therefore fully DDA compliant.

As a full colour printed logo design, Corpromat can be placed anywhere within the Matting system to create a highly visual corporate identity at the door entrance.

The size of the Corpromat system is in multiples of 100cm x 50cm to a maximum of 2 modules deep i.e. 100cm x 2 modules long i.e. 200cm with the complete integration of the logo in both directions without being compromised.

Corpromat is the only product to use this unique technology to bring a complete full colour printed logo mat module into the matwell system market.

Colours: Print colours are used in the manufacture of Corpromats.
