

High Visibility safety yellow walkway matting. Manufactured from SBR synthetic/natural Rubber.

A Unique multi-directional high grip pyramid pattern to allow for drainage of water and contaminants.

A fine cloth impression pattern on reverse to help minimize movement.

Ideally suited for building site safety walkways, can also be used as tread mats, runners, van loading areas.

Solves slip hazards quickly in and around external entranceways, doorways, ramps etc.

The pyramid pattern offers unrivalled grip in any direction and will act as a scrapers to trap water and debris from Boots, shoes and wheels.
