

- **Sound absorbing, non reflective**
- **Satra tested for slip resistance**
- **Surface or matwell installation**
- **Convenient modular format**
- **Multi-directional design**
- **100% Natural Rubber Base**
- **Simple no template fitting**

DIAMOND is the only true multi-directional system specially designed to work whichever way pedestrian or trolley traffic flows.

Each square metre of DIAMOND entrance matting incorporates 1296 flexible Rubber studs, 128 flexible rubber diamonds and 8 large carpet pads which combine to remove moisture and grit through the unique interactive cleaning action Active Pile Technology APT®.

Designed into the fabric of the system APT® ensures maximum transfer at the contact surface. DIAMOND entrance matting modules are a triumph in computer generated, state of the art technology.

Safe to use in tagged entrances as they do not interfere with the electronic waves.

Built to withstand the most demanding of commercial entranceway environments, the studded channel grid has a high capacity for moisture and debris collection and retention and provides unparalleled grip for added safety in wet conditions.

The flexible modules are interchangeable for maximum durability and may be individually replaced to economically extend the wear value of the whole installation. DIAMOND entrance matting modules are manufactured to ISO9002 and conform to current BS8300 DDA regulations.

**Colours:** Charcoal, Navy Blue, Silver Grey, Coco Brown, Green, Red  
**Temperature Range:** -20/+70DegC  
**Slip Resistance Test:** TM144 Satra Tested  
**Result:** High Slip Resistance
