

Heavy-duty resilient coils provide an ideal scraper entrance matting floor mat with a fall through effect for Matwell applications, which holds a high volume of grit and moisture whilst creating a clean surface to minimise re tracking.

Manufactured to ISO9002 Pastaloop is a cost effective primary entrance door matting system, completely weather proof, may be used indoors or outdoors.

The un-backed version is ideal in matwells or may be surface mounted using the backed version.

Economical Pastaloop Coil contract entrance matting system for use in public entranceways, wet areas, changing rooms etc.
